The Opportunity of a Lifetime

International Year One is the perfect way to start your degree at San Francisco State University.

Located in the city of San Francisco across two campuses, San Francisco State University (SF State) is one of the most desirable places to study in America. In a globally influential city that's also home to some of the world's biggest tech companies, our students have the chance to build the connections and experience that will transform their careers.

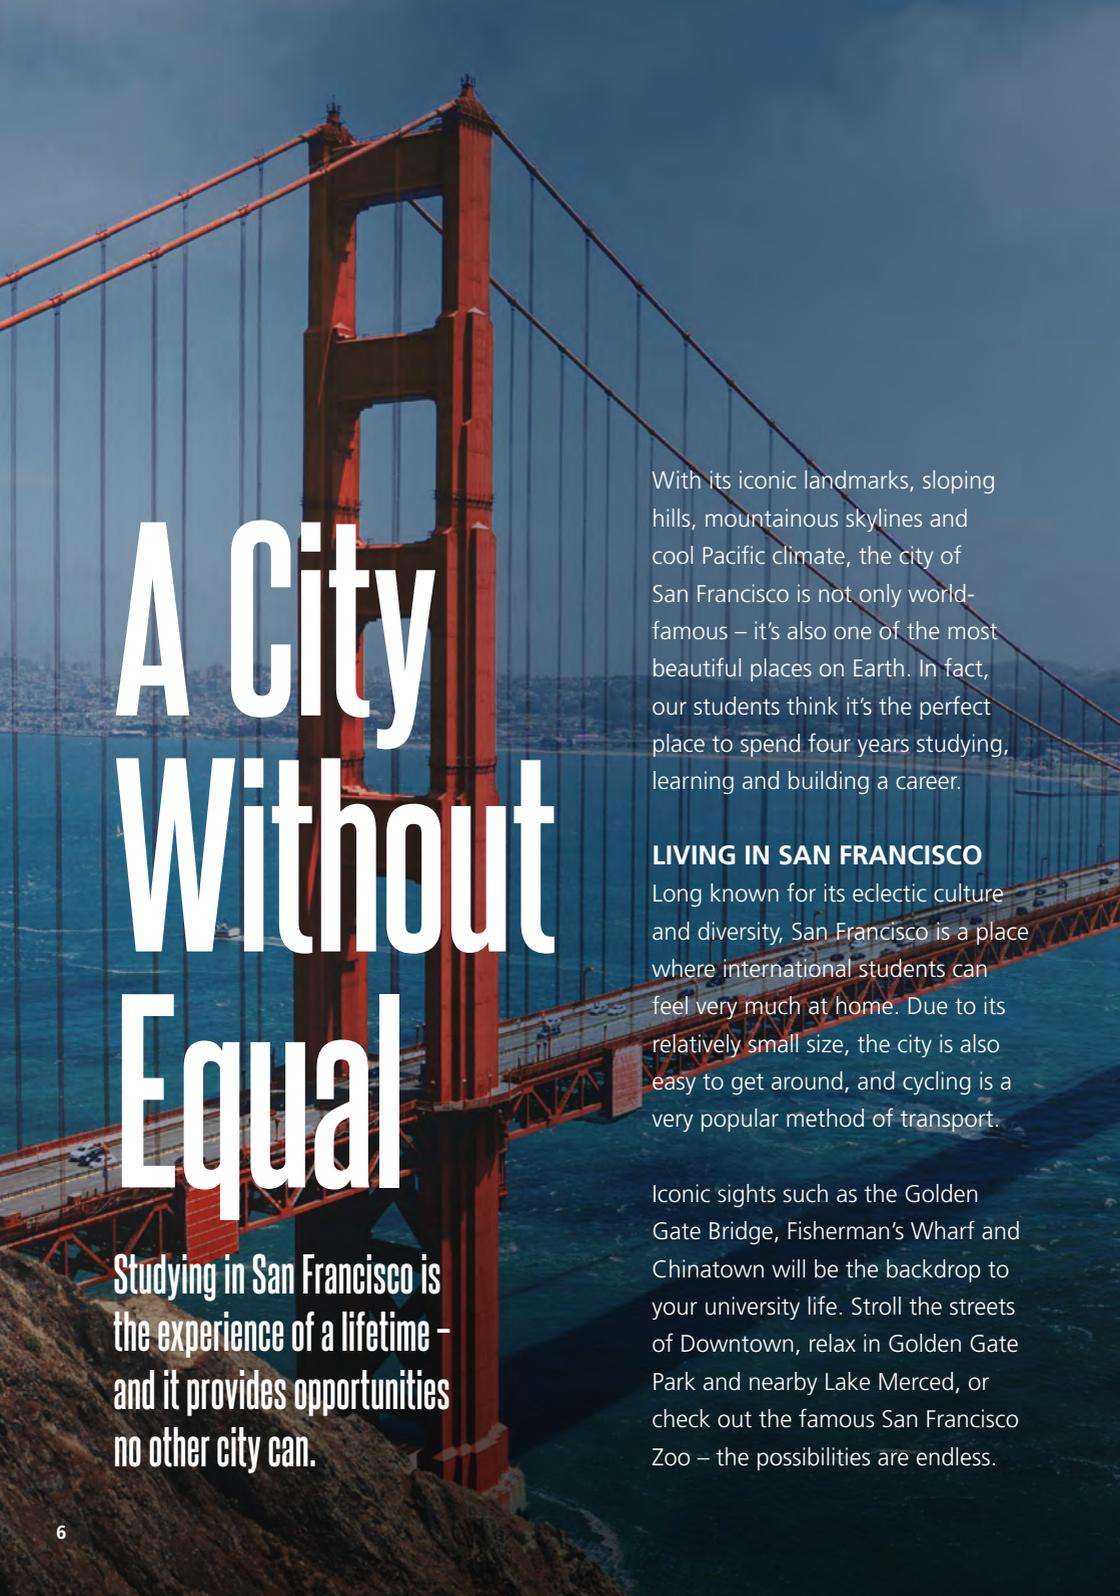

TAKING THE PLUNGE

At SF State, we understand that studying in another country can be daunting. That's why we are now offering international students a tailored course that helps ease the transition to U.S. undergraduate study.

As part of the International Year One course, you'll begin college-level study at SF State whilst also taking a range of specially designed modules that help build English language fluency and research skills. At the same time, you'll become part of a highly supportive international community, with dedicated staff to help you adjust to your new life as a U.S. university student.

This brochure will introduce you to some of the great things about living in San Francisco and learning at SF State. If studying for a degree in America seems like a dream... just take a look inside and see how it could become reality.

A high-angle, low-perspective shot of the Golden Gate Bridge in San Francisco. The bridge's massive red-orange towers and suspension cables are the central focus, extending from the top left towards the right. The bridge spans across a deep blue body of water. In the background, the city of San Francisco is visible on a hillside under a clear blue sky. The overall lighting is bright and clear, suggesting a sunny day.

A City Without Equal

Studying in San Francisco is the experience of a lifetime – and it provides opportunities no other city can.

With its iconic landmarks, sloping hills, mountainous skylines and cool Pacific climate, the city of San Francisco is not only world-famous – it's also one of the most beautiful places on Earth. In fact, our students think it's the perfect place to spend four years studying, learning and building a career.

LIVING IN SAN FRANCISCO

Long known for its eclectic culture and diversity, San Francisco is a place where international students can feel very much at home. Due to its relatively small size, the city is also easy to get around, and cycling is a very popular method of transport.

Iconic sights such as the Golden Gate Bridge, Fisherman's Wharf and Chinatown will be the backdrop to your university life. Stroll the streets of Downtown, relax in Golden Gate Park and nearby Lake Merced, or check out the famous San Francisco Zoo – the possibilities are endless.

San Francisco is
widely considered the

most important

city in the world for
new technology
start-ups

**Golden
Gate Bridge**

is the most-photographed
bridge anywhere in
the world

Despite the city's huge
global influence, its
population is just

875,000
as of 2019

A UNIQUE OPPORTUNITY

Studying in San Francisco arguably brings you closer to the heart of the global tech industry than anywhere else in the world.

The city itself is the home of Twitter, Airbnb, Uber and Lyft, but it is also within easy reach of Silicon Valley, where the headquarters of Apple, Facebook, Google and Tesla can be found. SF State students are often able to find internships or employment with these (or similar) companies when they graduate.

In other fields, San Francisco is also home to 30 international financial institutions and six Fortune 500 companies, as well as being a national hub for marketing, design and biotechnology. Whatever your skills and abilities, you'll have the chance to start a great career.

SAN FRANCISCO BY NUMBERS

Founded in 1776 by Spanish settlers

Birthplace of the United Nations in 1945

San Francisco's Chinatown is the oldest in North America (and the largest outside Asia)

It is one of the most ethnically mixed cities in America

The city's has cool summers, mild winters – and 100 days a year of fog

San Francisco International Airport is less than 10 miles from SF State

Why SF State?

World-class academics,
a diverse campus – and
an incredible location.

For international students, SF State is the ideal place to earn a degree and prepare for your future career. Rated one of the most diverse colleges in America,¹ our campus is a vibrant mix of different races, cultures and languages where everyone can feel at home.

SF STATE: FAST FACTS

Founded in 1899

Ranked in the Top 20 colleges nationwide for best location (Niche.com)

Bachelor's degrees offered in 72 subject areas

200+ on-campus students clubs

Ranked ninth for intramural sports (Best Colleges)

16 Academy Award winners and 49 Emmy winners among SF State alumni

21 Pulitzer Prize winners among SF State alumni

You'll have plenty of opportunities to build expertise in your chosen field. Our students frequently go on to outstanding careers in film, business, the law, medical science, education, entertainment, and the tech industry – with a significant number also heading to local companies such as Apple, Google, Wells Fargo and Oracle.

At the heart of this success are market-leading departments like our Business faculty (top 5% nationwide²) and film school. With 21 Pulitzer Prizes, 49 Emmy and 16 Oscar winners and NASA astronauts among our alumni, our students know that with hard work, success can be theirs too.

AFFORDABLE TUITION

Based in San Francisco, with all that the city has to offer, SF State is also part of the California State University system – meaning it is able to offer very low tuition fees to international students.

GOING PLACES

SF State is ranked among the Top 25 universities in America for Social Mobility³ – meaning that we're among the best at making it affordable for our students to graduate and obtain well-paying jobs.

What is International Year One?

International Year One is a special first-year program that boosts your academic English language skills and helps lay the groundwork for future success.

Full SF State student status, with access to all university facilities from day one

Small class sizes of no more than 18 students for supporting (non-credit) courses

International Year One allows students to take credited SF State preparation courses alongside additional academic and English language instruction. The vast range of credit courses on offer allows first-year students to both discover new fields and further explore already strong subjects.

Once International Year One is completed, students proceed directly to their second year of degree study at SF State.

SUPPORT AT EVERY STAGE

We understand how challenging it is to become an international student. Moving to another country, establishing a new life, tackling official processes and improving language skills are all difficult. That's why we provide constant support and guidance – not just from your first day at SF State, but from the moment you apply.

We have long experience in advising students on how to make a success of their studies and smooth out any practical or administrative difficulties – so you can ask a member of our team for help at any time.

Provides the best preparation for success in your subsequent studies

Large range of credited SF State courses to choose from

AREAS OF STUDY AVAILABLE:

- Liberal/Creative Arts
- Ethnic Studies
- Science/Engineering
- Health/Social Sciences
- Business
- Education

For a full list of the 72 subject areas you can choose from, see page 31.

In partnership with San Francisco State University, Oxford International operates International Year One supporting courses to prepare international students for their further degree studies. Oxford International is a unique private education provider that operates international colleges, online courses and English language schools across the UK and North America to create life-enhancing experiences for students worldwide.

Studying in America

Home to the world's finest universities, the United States is a destination for students seeking opportunities and education that is both broad and deep.

41%

of employers consider offering a higher salary to students who have studied abroad*

FAST FACTS

U.S. universities and colleges enrolled over 1 million international students in 2019

One-quarter of all international students in the U.S. are studying STEM subjects

Half of the global-Top 10 universities are American**

International students contributed more than \$39 billion to the U.S. economy and helped support an estimated 410,000 American jobs in 2020

FLEXIBILITY

Compared to many university systems around the world, the U.S. system allows students a great deal of choice in how they will begin, develop and eventually concentrate their undergraduate studies.

Instead of launching immediately into the study of a single subject, U.S. colleges and universities allow students to take a range of courses in various fields from the outset. This allows students to follow their intellectual interests, develop a broader understanding, and sample different fields to gauge their potential. Students can then choose their subject of focus – their “major” – at the end of their second year.

DIVERSITY

The United States is home to over one million international students – the largest number of any country in the world. At SF State, students come to study from over 100 different countries, so you can learn about other cultures simply by making friends amongst your peers. You may even make lifelong connections that will open doors – not only in America, but also in your home nation and many other places around the world.

EMPLOYABILITY

U.S. degrees have an international reputation, and employers particularly value U.S. graduates – both for the quality of their education and for the other benefits that come with studying in America.

The experience of studying overseas demonstrates resilience, adaptability and drive, as well as developing your understanding of the wider world and different cultures. In California, you’ll also have a greater chance to participate in internships and work experience than almost anywhere else on the planet – and more opportunities to meet potential employers, both during and after your degree.

POSTGRADUATE WORK EXPERIENCE

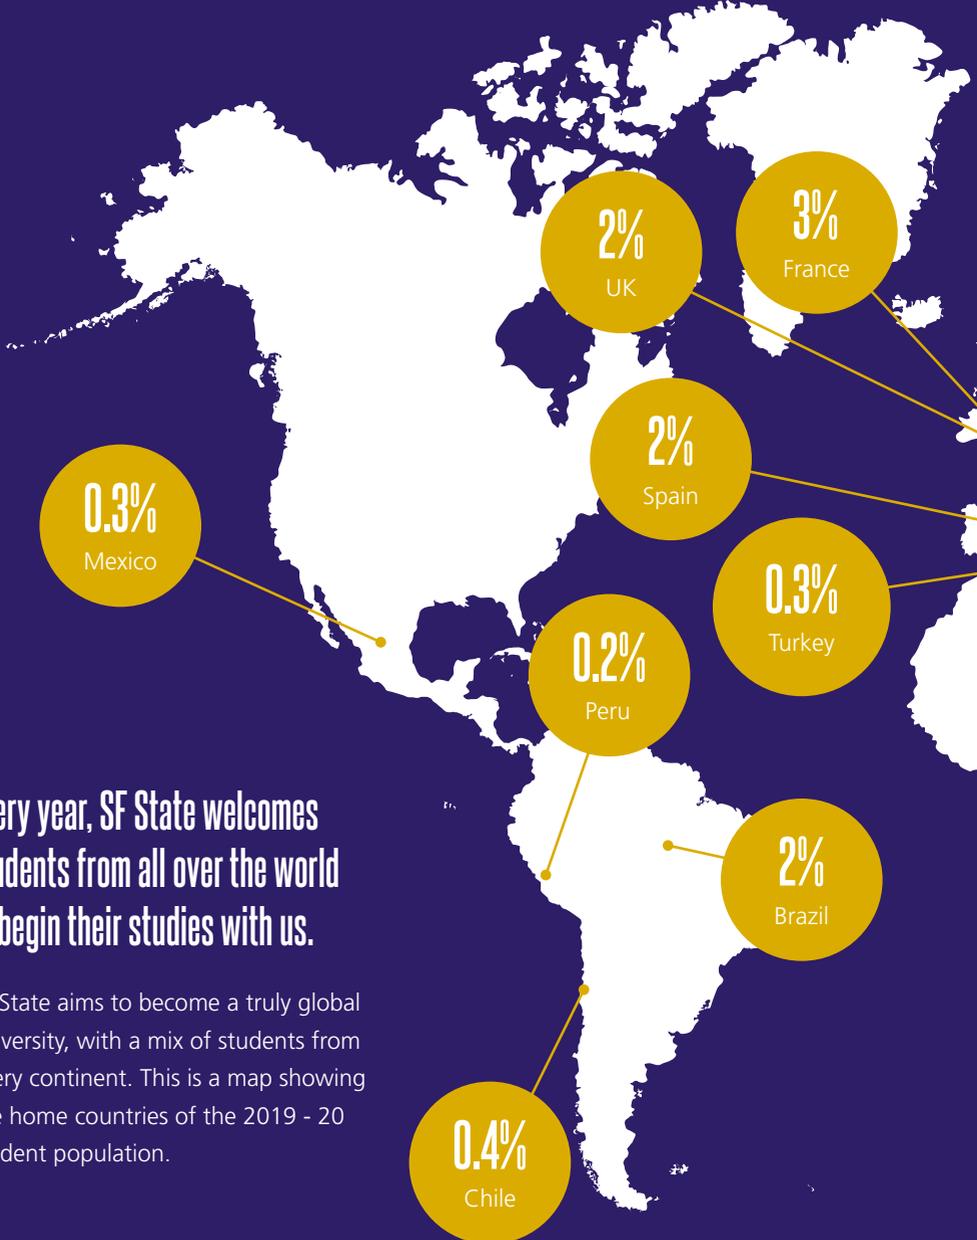

International students who have studied on an F-1 visa will also have the opportunity to engage in work experience or training within the U.S. after they have graduated. This is called Optional Practical Training (or OPT) and can be undertaken for up to one year after graduation (or two years afterward in the case of applicants with degrees in science, technology, engineering or mathematics). Training must be taken in a field related to the prior course of study.

1/3

of the global Top
100 universities are
American**

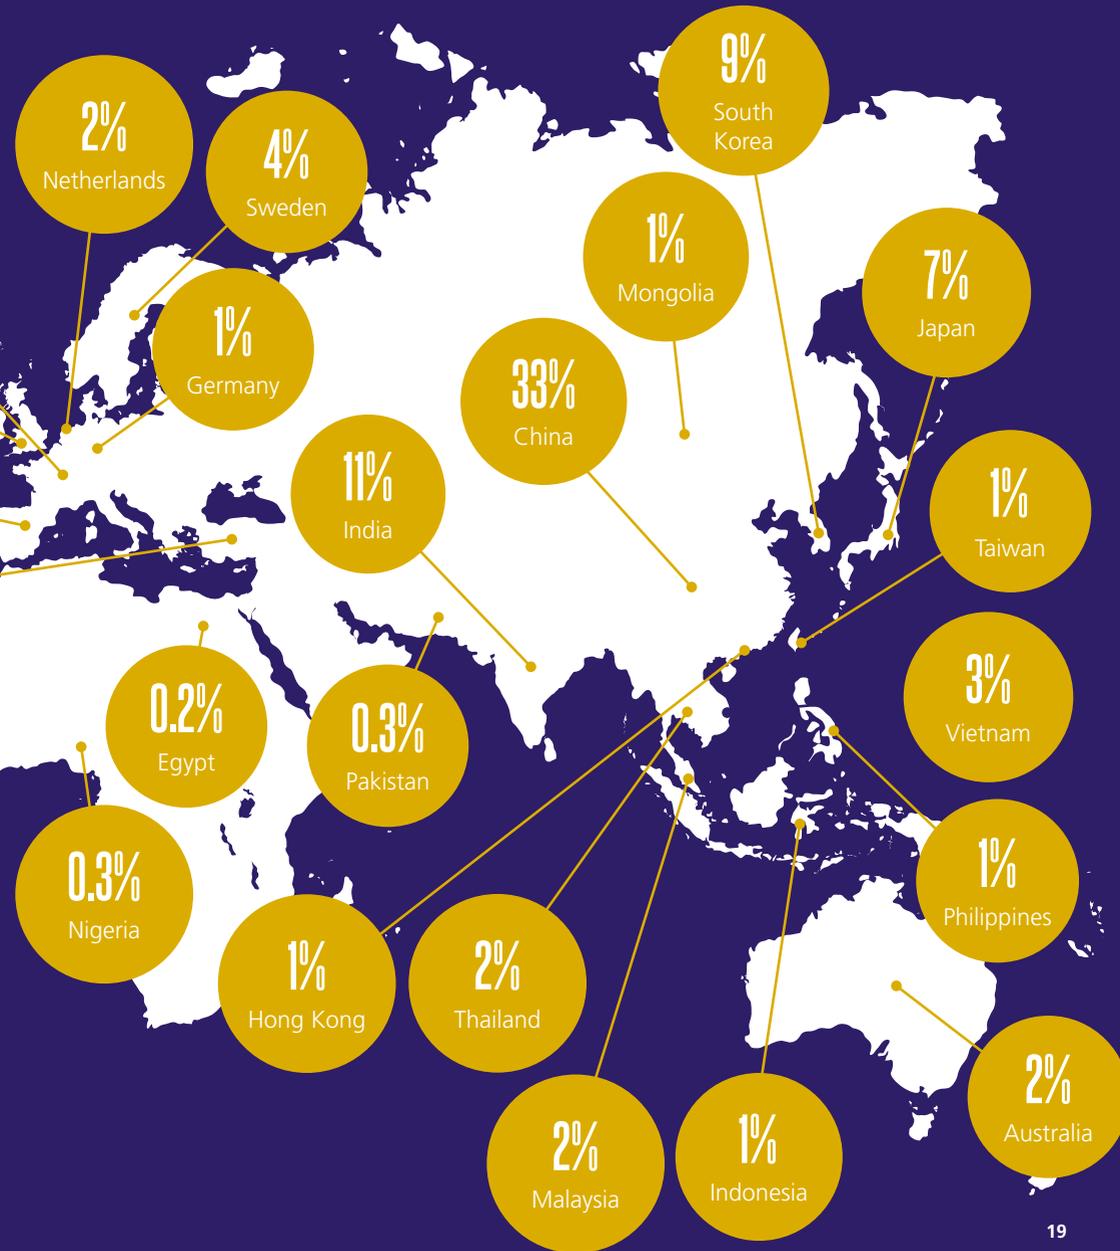

An International Community

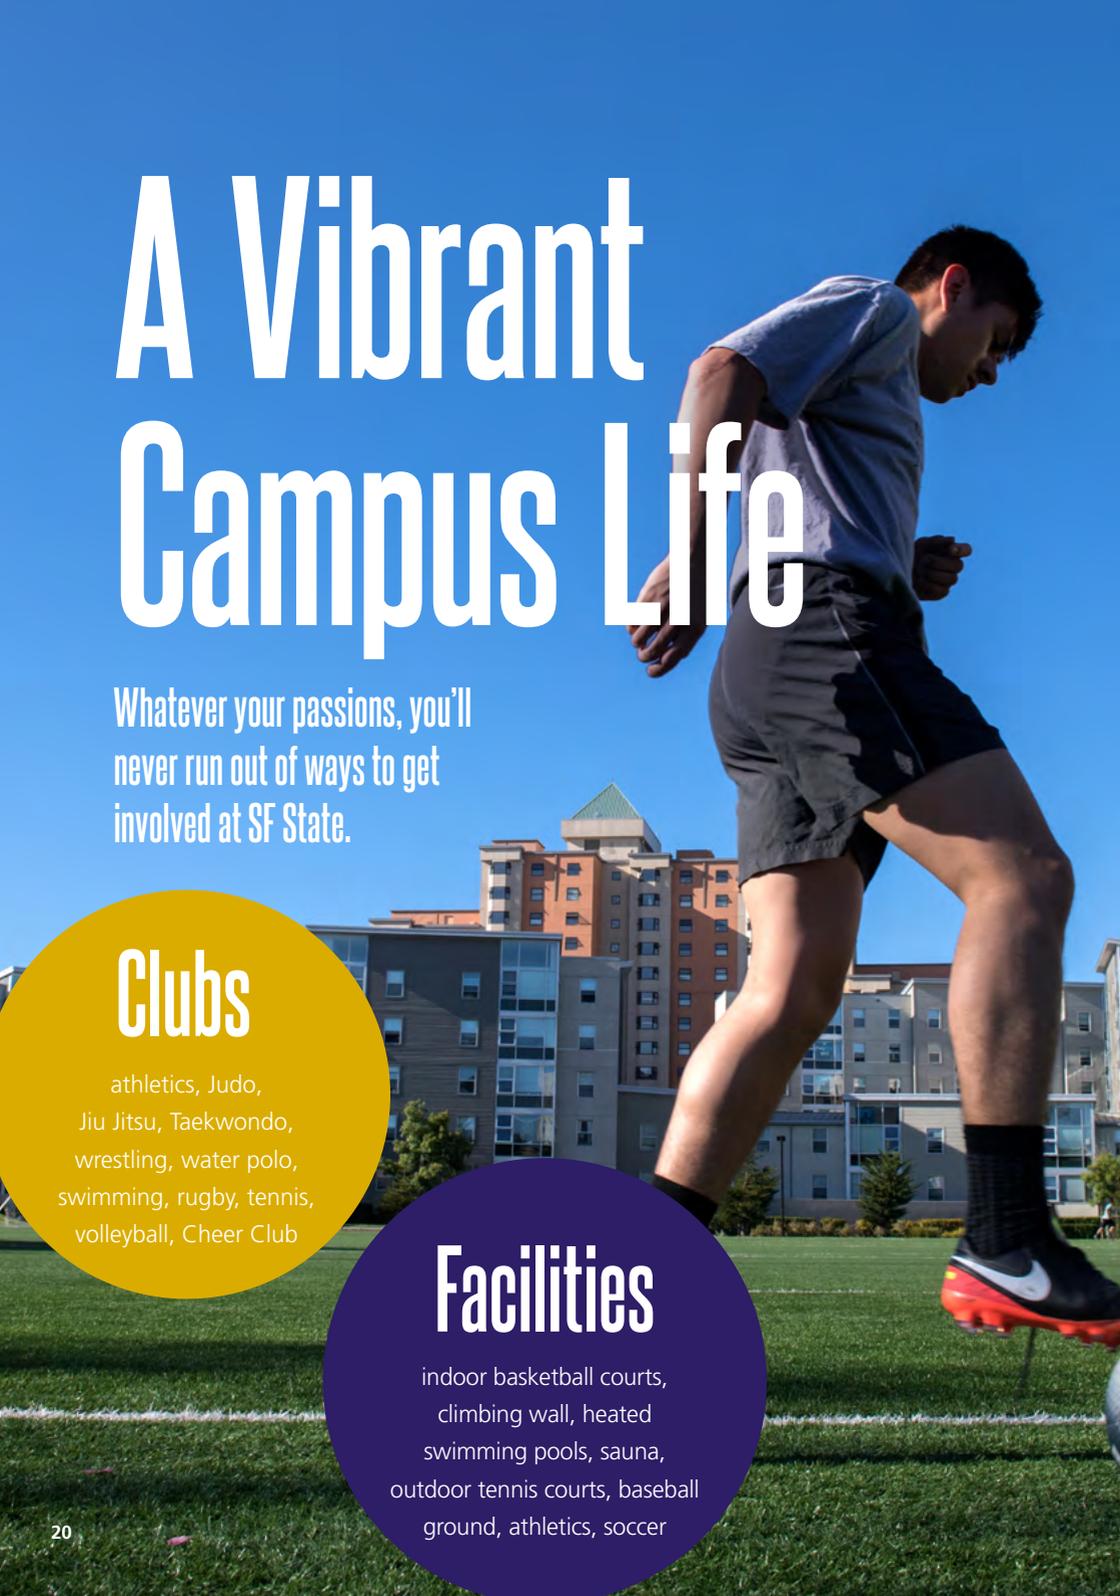

Every year, SF State welcomes students from all over the world to begin their studies with us.

SF State aims to become a truly global university, with a mix of students from every continent. This is a map showing the home countries of the 2019 - 20 student population.

% of Learners

A Vibrant Campus Life

Whatever your passions, you'll never run out of ways to get involved at SF State.

Clubs

athletics, Judo, Jiu Jitsu, Taekwondo, wrestling, water polo, swimming, rugby, tennis, volleyball, Cheer Club

Facilities

indoor basketball courts, climbing wall, heated swimming pools, sauna, outdoor tennis courts, baseball ground, athletics, soccer

On campus, our energetic students run more than 200 clubs, focused on everything from politics to sports and religious organizations. At the heart of student life is our new Mashouf Wellness Center, the home of most SF State activities. It's also a major campus social hub, where student events range from workshops and careers fairs to movie nights and concerts.

Extra-curricular activities are also a great chance to build deeper connections with your peers by participating in smaller communities based on mutual interests. They can add a great deal to your time at SF State and can even help give you a broader perspective on your studies!

SPORTS

Whether you play competitive sport or simply want to try out a new pastime, there is a club for everyone at SF State. Whatever your confidence level, we aim to give every SF State student the opportunity to enjoy and take part in sports.

Our university is ranked ninth in the U.S. for intramural (intra-university) sports, but we are also active in external competitions – for instance, both women's and men's athletics teams compete in the NCAA II, CCAA and RMAC conferences.

Welcome to Your Future

From the moment you arrive at SF State, our Career Services and Leadership Development Center can help transform you into a highly employable professional.

Students graduating today face a more demanding job market than previous generations. Beyond academic achievement, students must now demonstrate commitment, dedication and interpersonal skills – as well as a firm grasp of the practical aspects of their chosen field. This means that most students will need to undertake work experience while still studying, as well as preparing thoroughly for the many different assessments they will face in any recruitment process.

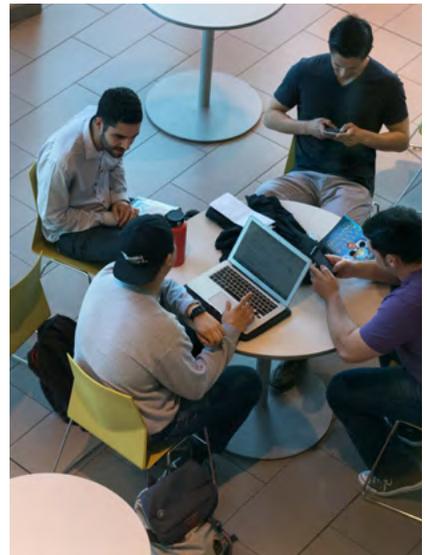

OUR SUPPORT

SF State's Career Service and Leadership Development Center offers a range of ways to ensure that every student can make the best start to their career.

- **Careers events:** These include a fall and spring career fair, a part-time job fair, and a graduate school fair. We also offer a wide variety of workshops to all current SF State students and alumni.
- **Resources:** The Career Service provides a number of careers-oriented webinars, as well as written and video guides on how to write resumes, apply for internships and approach graduate school admissions. Face-to-face practice interviews in various fields are also offered.
- **Partnerships with industry:** Collaborations with strategic partners like Genentech and the CSU Entertainment Alliance create many opportunities for students in the state's top industries.
- **Special courses:** The President's Leadership Fellows Course helps students develop soft skills including resume writing, interview skills and networking. Workshops are also provided on leadership, teamwork, critical thinking, unconscious bias and emotional intelligence. Alternatively, the San Francisco Venture Capital Fast Pitch Conference gives students a chance to pitch their ideas to venture capitalists and angel investors: to date, it has won millions of dollars in investment for student and graduate startups.

LEADERSHIP DEVELOPMENT

Part of the Career Service & Leadership Development Center's mission is to develop visionary, goal-driven and action-oriented student leaders. Because there is no one-size-fits-all leadership style, we aim to empower each student with the ability to access their own unique identity as a leader. Students will develop lifelong skills through character development, creative and critical thinking, interpersonal communication, practical knowledge and career preparation.

You can learn more about the different University Housing options at housing.sfsu.edu

Accommodation

International Year One students can choose from a range of accommodation options such as:

- Homestay
- SF State Housing

Living on campus provides a supportive environment and access to resources.

HOMESTAY

StudentRoomStay

We welcome international students and encourage students to live in personally-matched homes with local families to get a once in a lifetime cultural experience. We provide students with a welcoming family and a place to call home while pursuing their education. SRS Concierge specializes in providing safe, easy and world-class homestay experiences.

housing.sfsu.edu/Manzanita-Square

A young person with dark hair and glasses is shown in profile, playing a violin. The violin is a rich, warm brown color. The person is wearing a dark jacket. The background is blurred, suggesting an orchestra or a concert hall setting.

Courses

International Year One offers a mix of credit-bearing SF State courses and non-credit courses designed to boost your English language study skills.

The combination of courses you take in International Year One depends on your level of English language skills at the outset:

- **Students with the minimum 4.5 IELTS / 45 TOEFL iBT (or equivalent)** will be enrolled in International Year One for 3 terms. The first term will focus primarily on gaining English language and academic skills through our non-credit courses (29 hours per week). You will also experience your first credit-bearing course – Living in San Francisco (1 unit).
- **Students with an English proficiency score of 5.0 IELTS / 50 TOEFL iBT (or equivalent) and 5.5 IELTS / TOEFL – 55** will be enrolled in International Year One for 2 terms, beginning their first term with a combination of non-credit English language courses (10-18 hours per week) and 7-11 units of credit-bearing coursework.

Most students will complete International Year One having earned 18 - 24 credits towards their SF State degree.

As you progress through International Year One, the hours spent on English language instruction gradually decrease, while the hours of credit-bearing coursework increase – until you matriculate into your second year at SF State with a full schedule of credit-bearing coursework.

SF State's
Bachelor's degrees
are offered in

72

subject areas

1/4

of all international
students in the U.S.
are studying STEM
subjects

NON-CREDIT COURSES

International Year One non-credit courses are designed to supplement and support your wider studies at SF State. They cover a wide range of topics including:

- Courses on English for Academic Purposes and Academic Writing
- Academic acculturation courses on matters such as plagiarism, study skills, collaboration, critical thinking, active class participation, course requirements/expectations, and research
- Small group seminars to support the content of the credit-bearing courses
- English as a Second Language (ESL) and academic writing tutoring
- Living in San Francisco

Extra Support

Our full-time student services manager will also be on campus to provide International Year One students with ongoing assistance and guidance. This support covers academic issues as well as practical, social and emotional needs arising from the transition to studying in the U.S.

Areas of Study

Once you have completed International Year One and matriculated into your second year at SF State, you can begin to choose from 72 different majors for your final degree.

+ University support classes with a total of 12-14hrs study

- Immersive Experience
- Advanced English for Academic Purposes
- Academic Success Skills
- Academic Support

University Support Classes

Integrated Skills Course

Students will develop their ability to master everyday English communication skills in an American context, socially, professionally, and academically.

English for Academic Purposes

The course teaches students the English language and critical thinking skills needed to achieve academic success according to American university expectations.

- EAP High Intermediate: Minimum of 5.0 IELTS or equivalent
- EAP Advanced: Minimum of 5.5 IELTS or equivalent

Academic Success Skills

This course will focus on the social, academic, and professional skills required to succeed in an American higher education setting and on the campus of San Francisco State University.

Academic Support

In a small group, students are encouraged to talk, think, and share more readily than in a larger group.

Immersive Experience

SF State offers a range of co-curricular and extra-curricular activities that ensure all international students enjoy a truly immersive experience, nurturing individual success and community connections.

Admission Requirements

Before admission to International Year One, applicants must satisfy our minimum requirements for English language skills and academic achievement.

REQUIREMENTS FOR INTERNATIONAL YEAR ONE STUDENTS

To be admitted to SF State, applicants must demonstrate a minimum English proficiency score of 4.5 IELTS / 45 TOEFL iBT (or equivalent), as well meet or exceed, the academic entry criteria listed on pages 38 to 41.

Students' level of English language skills at the outset will also determine their route through International Year One. Those with an English proficiency score of 5.0 IELTS / 50 TOEFL iBT (or equivalent) will be able to take standard credit-bearing courses from the beginning of their first year, while those with lower scores will first receive a more intensive course of English language instruction. (For further details, see the previous section on Courses.)

REQUIREMENTS FOR TRANSFER TO SF STATE – YEAR 2

To complete International Year One and matriculate into their second year at SF State, students must successfully complete a minimum of 18 academic units earning a "C" (2.0) Grade Point Average or higher and demonstrate English Proficiency by earning a 2.0 GPA and a CR or C– or better in ENG 202.

ENGLISH ENTRY CRITERIA

The following English proficiency exams and levels accepted for entry into the International First Year at SF State:

International Year One	IELTS	ELLT	TOEFL IBT
3 Terms	4.5	2	45
2 Terms	5	3	50

Alternatively, applicants who are able to demonstrate 2 years of full-time academic study in the following countries where the language of instruction was English, are **exempt from supplying an English proficiency exam for admission** into the International First Year at SF State:

Antigua	Ghana	Nigeria	Swaziland
Australia	Grand Cayman Islands	Northern Marianas	Tanzania
Bahamas	Grenada	Palau	Trinidad & Tobago
Barbados	Ireland	Papua New Guinea	Uganda
Belize	Jamaica	Scotland	United States
Bermuda	Kenya	Sierra Leone	Virgin Islands
Botswana	Lesotho	South Africa	Wales
Canada	Liberia	St. Kitts	Zambia
England	Malawi	St. Lucia	Zimbabwe
Gambia	New Zealand	St. Vincent & Grenadines
